[From the Memphis Commercial.] The Marion County Democrat makes a revelation—at least to us of the character of one of Gov. Buchanan's appointments which is astounding, and all the more so because it seems that the Governor was fully advised beforehand of the character of his appointee, and not only disregarded, but simply resented, the wellmeant effort to save him from a serious blunder. The appointment was of Mr. C. C. Snyder, a Republican, as a member of the Chattanooga Board of Public Works, an office of great importance, and one which, as the the Gibraltars of Democracy is the Democrat says, intrusts the appointee merest bosh. No Democrat believes Democrat says, intrusts the appointee with the keeping and disbursement of \$500,000 or \$600,000 as a tax fund to he city. The accusations made against Snyder are embodied in an official record of an opinion delivered by Judge John Baxter, of the United States Circuit Court, at Chattanooga, in proceeding to debar Snyder from the right to practice as an attorney in the court. The facts of the case, as part of the state. We have had so many set forth in Judge Baxter's opinion, years of incompetent legislation that are the history of one of the most daring villanies ever perpetrated.
